Free Mail Delivery for Orleans Village.

The post-office department will proceed to establish free village delivery of mail as soon as the necessary civic improvements have been made. The streets must be named and marked with appropriate signs and the houses numbered and the prospective patrons must provide private mail receptacles for the mail at the door, so that mail can be left in their absence and without delay. This can be provided with a regular box of some approved type or by a slot in the door through which mail may be dropped into the house.
